

NESCAFÉ[®]
SOLUTION 2.0

EXPERIENCE THE **ENHANCED**

It has always been our endeavour to serve you with solutions that cater to the ever-evolving shift in consumer preferences. Our latest offering is NESCAFÉ Solution 2.0 that not only delivers on quality and consistency, but also variety, hygiene and convenience.

NESTLÉ a+ milk is manufactured using Ultra High Temperature (UHT) Technology to ensure complete destruction of bacteria and spillage enzymes. It undergoes 61 stringent quality checks, has no preservatives and the entire process is untouched by hands to help retain the goodness & quality, giving your employees a great tasting cup topped with thick froth.
